Descripción de problemas detectados

Los problemas detectados en la página [HEADHUNTER](#) son varios ya que toda la página esta mal diseñada para los celulares, los componentes con problemas son:

- Menú de navegación mal diseñado para celulares
- Hay mucho espacio en blanco el cual no cumple ninguna función
- El contenido se sobrepone entre las secciones

Justificación de las decisiones de diseño tomadas

Las decisiones tomadas para mejorar el diseño de adaptabilidad de la pagina fueron en base a un análisis critico el cual nos ayudó a localizar los problemas, se solucionó lo siguiente:

- Menú adaptado a celulares
- Espacio reducido, que ocupe solo lo necesario para los componentes
- El contenido ya no se sobrepone entre secciones

Tecnologías utilizadas

Las tecnologías utilizadas para este proyecto fueron:

- React
- Vite
- HTML
- CSS
